Exhibit A

Statement of CPNI Procedures and Compliance

Arrival Communications, Inc., does not use or permit access to CPNI to market any services outside of the total service approach as specified in 47 CFR §64.2005. If Arrival Communications elects to use CPNI in a manner that does require customer approval, it will follow the applicable rules set forth in 47 CFR Subpart U, including the institution of operational procedures to ensure that notification is provided and customer approval is obtained before CPNI is used or disclosed.

Arrival Communications ensures that its employees do not improperly use or disclose CPNI by requiring that all access to CPNI be approved by a supervisor with knowledge of the FCC's CPNI requirements.

Arrival Communications has instituted training procedures and a corresponding disciplinary process to ensure that its personnel understand and comply with restrictions regarding the use and disclosure of, and access to CPNI. Requests for CPNI by law enforcement agencies are only granted if a subpoena is provided or if the customer provides written permission.

Arrival Communications maintains a record of all sales and marketing campaigns that use CPNI.

Arrival Communications maintains a record of all instances where CPNI was disclosed or provided to third parties, or where third parties were allowed access to CPNI.

Arrival Communications requires written authentication by end users requesting copies of call detail records (CDR), and authenticates end user requests for access to secure web based customer care that allow access to CDR. Third party access to CDR is prohibited, unless expressly approved by the end user in writing, which approval is verified by Arrival Communications.
